DINOSAUR

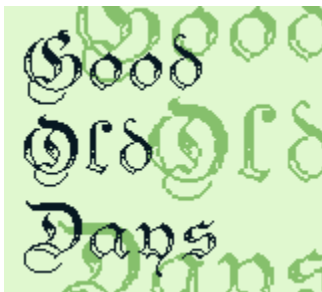

you've been here before  
volcano, dinosaur  
nineteen ninety-four  
was not long enough

hold onto the gift  
but don't open the rift  
a tectonic shift  
is not strong enough

forgot what was real  
invented the wheel  
and lost the appeal

BOLD NEW SOUND  
es la misma basura

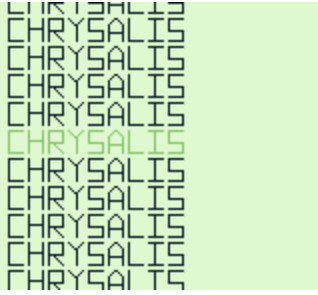

GOOD OLD DAYS

good old days don't make me say it, no  
don't make me say it, no  
we are only just the things we know

good old days don't let you hear it, no  
don't let you hear it, no  
we are only just the things we're told

good old days don't ask the questions, no  
don't ask the questions, no  
we are searching for eternal life

## CHRYSALIS

when I emerge from my chrysalis  
will I be better than this  
when I emerge from my chrysalis

when I emerge from my chrysalis  
will there be any difference  
when I emerge from my chrysalis

will I emerge from my chrysalis  
if I get enough sleep now  
will I emerge from my chrysalis  
when I wake up from a nap

will I emerge from my chrysalis  
if I take a vacation  
will I emerge from my chrysalis

How come you couldn't see the bug inside me  
(how come I can't see inside the bug?)  
How come you couldn't see the bug inside me  
(how come I can't see inside the bug?)

when I emerge from my chrysalis  
will it make any difference  
when I emerge from my chrysalis

when I emerge from my chrysalis  
will you still be right near me  
when I emerge from my chrysalis  
or will you already be gone

How come you couldn't see the bug inside me  
(how come I can't see inside the bug?)  
How come you couldn't see the bug inside me  
(how come I can't see inside the bug?)

When I emerge from my chrysalis  
(hasn't it always seemed doomed from the start)  
when I emerge from my chrysalis  
will I still break your heart?
