

IMPERIUM STRIKE FORCE

MANUAL

Welcome to Imperium Strike Force.

You play as a squadron of four soldiers with different abilities:
The mighty Space Marines, with medium-range weapons and power armour;
Imperial Guard snipers, with long-range weapons but lower durability.

Root out heresy from each and every planet, no matter the collateral damage.
It is all in the service of the glorious Emperor of Mankind.

CONTROLS

D-pad: Movement

A Button: Fire

B Button: Change Formation

(Adopt one of three tactical formations, see below)

Shift/Select: Special

FORMATION 1: BOX

A tight formation which minimizes exposure while allowing all soldiers to fire. Very versatile.

FORMATION 2: LINE

A vertical line formation allowing a wide spread of fire. Can be unwieldy in some situations.

FORMATION 3: FILE

A narrow horizontal line of troops. Strictly a defensive maneuver, firing is disabled while in this formation.

SPECIAL: DREADNOUGHT

Sacrifice one of your own soldiers to temporarily become an invincible Dreadnought.
